Dear Hiring Manager,

I am writing to express my genuine interest in the Agricultural Education Teaching position at your school. As someone who grew up with a deep appreciation for agriculture and has spent the last few years immersed in both classroom instruction and FFA leadership, I am excited about the opportunity to inspire students and help them discover the value of agricultural education, not just as a subject, but as a way of life.

During my time as a substitute teacher at Overton High School and Overton Elementary, I had the privilege of working with students across grade levels and learning styles. I have also designed lessons, supported FFA events, and supervised LDE projects all with the goal of making agriculture accessible, hands-on, and meaningful.

I hold a Texas Educator Certificate in Agricultural Science and Technology (Grades 6-12), along with certifications in Digital Literacy and CPR/First Aid. I am also proud to be affiliated with the National Association of Agricultural Educators and the Texas FFA Association, both of which are communities that continue to shape my approach to teaching and leadership.

What drives me most is the chance to help students connect what they learn in the classroom to real-world applications. I believe agricultural education is more than a curriculum, it's a way of life. I would love the opportunity to bring that vision to your school.

Thank you for considering my application. I would be thrilled to speak with you further about how I can contribute to your team and support your students. Please feel free to reach out at your convenience.

Warm regards,

Kaylee Sullivan
